Background

Sarah Lyons is an experienced analyst specializing in biological data. She has a multi-disciplinary background in statistics, ecology, metabolomics, genomics, and microbiology. She has contributed to a wide variety of research publications in the context of data analysis, visualizations, and analytical method development.

Education

2020 MSc in Biological Sciences

University of British Columbia

Colorado State University

2013 BA in Biological Sciences

Career

2023 Intermediate Computational Biologist

Poisson Consulting

2021 Analytical Chemist

Supra Research and Developement

2013 Research Associate

Colorado State University

University
